

CECW-EH-Y

**DEPARTMENT OF THE ARMY  
U.S. Army Corps of Engineers  
Washington, DC 20314-1000**

EM 1110-2-1420

Manual  
No. 1110-2-1420

31 October 1997

**Engineering and Design  
HYDROLOGIC ENGINEERING REQUIREMENTS  
FOR RESERVOIRS**

**Table of Contents**

Subject	Paragraph	Page	Subject	Paragraph	Page
<b>Chapter 1</b>					
<b>Introduction</b>			Managing Competitive and Complementary Functions .....	3-3	3-2
Purpose .....	1-1	1-1	Operating Concepts .....	3-4	3-2
Applicability .....	1-2	1-1	Construction and Physical		
References .....	1-3	1-1	Operation .....	3-5	3-3
Related H&H Guidance .....	1-4	1-1	General Study Procedure .....	3-6	3-4
<b>Part 1 Hydrologic Engineering Concepts for Reservoirs</b>			<b>Chapter 4</b>		
<b>Chapter 2</b>			<b>Reservoir Systems</b>		
<b>Reservoir Purposes</b>			Introduction .....	4-1	4-1
Congressional Authorizations .....	2-1	2-1	System Description .....	4-2	4-1
Reservoir Purposes .....	2-2	2-2	Operating Objectives		
Flood Control .....	2-3	2-2	and Criteria .....	4-3	4-2
Navigation .....	2-4	2-3	System Simulation .....	4-4	4-2
Hydroelectric Power .....	2-5	2-3	Flood-Control Simulation .....	4-5	4-2
Irrigation .....	2-6	2-4	Conservation Simulation .....	4-6	4-3
Municipal and Industrial			System Power Simulation .....	4-7	4-3
Water Supply .....	2-7	2-4	Determination of Firm Yield .....	4-8	4-4
Water Quality .....	2-8	2-4	Derivation of Operating		
Fish and Wildlife .....	2-9	2-5	Criteria .....	4-9	4-4
Recreation .....	2-10	2-5	System Formulation Strategies .....	4-10	4-5
Water Management Goals and Objectives .....	2-11	2-6	General Study Procedure .....	4-11	4-7
<b>Chapter 3</b>			<b>Part 2 Hydrologic Analysis</b>		
<b>Multiple-Purpose Reservoirs</b>			<b>Chapter 5</b>		
Hydrologic Studies for			<b>Hydrologic Engineering Data</b>		
Multipurpose Projects .....	3-1	3-1	Meteorological Data .....	5-1	5-1
Relative Priorities of			Topographic Data .....	5-2	5-3
Project Functions .....	3-2	3-1	Streamflow Data .....	5-3	5-4

<b>Subject</b>	<b>Paragraph</b>	<b>Page</b>	<b>Subject</b>	<b>Paragraph</b>	<b>Page</b>
Adjustment of Streamflow			Flood Volume Frequencies	..... 10-3	10-2
Data .....	5-4	5-5	Hypothetical Floods	..... 10-4	10-3
Simulation of			Operation Constraints		
Streamflow Data .....	5-5	5-8	and Criteria .....	10-5	10-3
<b>Chapter 6</b>			Storage Capacity		
<b>Hydrologic Frequency</b>			Determinations .....	10-6	10-4
<b>Determinations</b>			Spillways .....	10-7	10-4
Introduction .....	6-1	6-1	Flood-Control System		
Duration Curves .....	6-2	6-1	Formulation .....	10-8	10-5
Flood-Frequency Determinations .....	6-3	6-1	General Study Procedure .....	10-9	10-6
Estimating Frequency Curves .....	6-4	6-3			
Effect of Basin Developments			<b>Chapter 11</b>		
on Frequency Relations .....	6-5	6-4	<b>Conservation Storage</b>		
Selection of Frequency Data .....	6-6	6-4	General Considerations .....	11-1	11-1
Climatic Variations .....	6-7	6-5	Water Supply .....	11-2	11-2
Frequency Reliability Analyses .....	6-8	6-6	Navigation and Low-Flow		
Presentation of Frequency			Augmentation .....	11-3	11-3
Analysis Results .....	6-9	6-6	Fish and Wildlife .....	11-4	11-4
<b>Chapter 7</b>			Hydroelectric Power .....	11-5	11-5
<b>Flood-Runoff Analysis</b>			Water Quality Considerations .....	11-6	11-11
Introduction .....	7-1	7-1	Water Quality Requirements .....	11-7	11-11
Flood Hydrograph Analysis .....	7-2	7-1	Reservoir Water Quality		
Hypothetical Floods .....	7-3	7-1	Management .....	11-8	11-12
<b>Chapter 8</b>					
<b>Water Surface Profiles</b>			<b>Chapter 12</b>		
Introduction .....	8-1	8-1	<b>Conservation Storage Yield</b>		
Steady Flow Analysis .....	8-2	8-1	Introduction .....	12-1	12-1
Unsteady Flow Analysis .....	8-3	8-2	Problem Description .....	12-2	12-1
Multidimensional Analysis .....	8-4	8-2	Study Objectives .....	12-3	12-1
Movable-Boundary Profile Analysis .....	8-5	8-2	Types of Procedures .....	12-4	12-2
<b>Chapter 9</b>			Factors Affecting Selection .....	12-5	12-3
<b>Reservoir Sediment Analysis</b>			Time Interval .....	12-6	12-3
Introduction .....	9-1	9-1	Physical Constraints .....	12-7	12-4
Sediment Yield Studies .....	9-2	9-1	Priorities .....	12-8	12-4
Reservoir Sedimentation Problems .....	9-3	9-1	Storage Limitations .....	12-9	12-4
Downstream Sediment Problems .....	9-4	9-2	Effects of Conservation		
Sediment Water Quality .....	9-5	9-3	and Other Purposes .....	12-10	12-6
Sediment Investigations .....	9-6	9-3	Simplified Methods .....	12-11	12-8
<b>Part 3 Reservoir Storage</b>			Detailed Sequential Analysis .....	12-12	12-9
<b>Requirements</b>			Effects of Water Deficiencies .....	12-13	12-11
<b>Chapter 10</b>			Shortage Index .....	12-14	12-12
<b>Flood-Control Storage</b>			General Study Procedures .....	12-15	12-12
General Considerations .....	10-1	10-1			
Regulated Release Rates .....	10-2	10-1			

Subject	Paragraph	Page	Subject	Paragraph	Page
<b>Part 4 Hydrologic Engineering Studies for Reservoirs</b>			<b>Chapter 17 Channel Capacity Studies</b>		
<b>Chapter 14 Spillways and Outlet Works</b>			Introduction .....	17-1	17-1
Function of Spillways and Outlet Works .....	14-1		Downstream Channel Capacity .....	17-2	17-1
Spillway Design Flood .....	14-2		Stream Rating Curve .....	17-3	17-2
Area and Capacity of the Reservoir .....	14-3		Water Surface Profiles .....	17-4	17-2
Routing the Spillway Design Flood .....	14-4				
Sizing the Spillway .....	14-5				
Outlet Works .....	14-6				
<b>Chapter 15 Dam Freeboard Requirements</b>			<b>Chapter 18 Real Estate and Right-of-Way Studies</b>		
Basic Considerations .....	15-1		Introduction .....	18-1	18-1
Wind Characteristics over Reservoirs .....	15-2		Definition of Terms .....	18-2	18-1
Computation of Wave and Wind Tide Characteristics .....	15-3		Real Estate Acquisition Policies for Reservoirs .....	18-3	18-1
Wave Runup on Sloping Embankment .....	15-4		Hydrologic Evaluations .....	18-4	18-2
Freeboard Allowances for Wave Action .....	15-5		Water Surface Profile Computations .....	18-5	18-2
<b>Chapter 16 Dam Break Analysis</b>			Development of an Envelope Curve .....	18-6	18-2
Introduction .....	16-1		Evaluations to Determine Guide Taking Lines (GTL) .....	18-7	18-2
Dam Breach Analysis .....	16-2		Acquisitions of Lands for Reservoir Projects .....	18-8	18-3
Dam Failure Hydrograph .....	16-3		Acquisition of Lands Downstream from Spillways for Hydrologic Safety Purposes .....	18-9	18-4
Dam Break Routing .....	16-4				
Inundation Mapping .....	16-5				
			<b>Appendix A References</b>
